About Cavagna Group

Since 1949 Cavagna Group has been supplying industries and consumers worldwide, to become today's leading manufacturer of equipment and fittings for compressed gases, gas storage and control. With nine vertically integrated production units in Italy, seven others spread on the five continents and a distribution network covering over 145 countries throughout the world, we offer only the best, most reliable products and dynamic services to our customers.

Our experience and the reliability of our products have lead long lasting cooperation with virtually all major Oil Companies, producers of compressed gases containers and gas appliance OEMs.

About Cavagna Group Asia

Situated in a region of unique economic, religious, and cultural diversity, Cavagna Group Asia is the youngest of the Cavagna Group Manufacturing facilities worldwide. All over the world Cavagna Group has earned the best reputation for its high standards of quality and for its capability to comply with the most stringent specifications set down by International Bodies and Local Authorities. A complete range of Equipment for compressed Gases, 14 modern factories and a devotion to quality and flexibility make Cavagna the real global supplier of solutions for gas control in the five continents.

Cavagna Group Asia, just one hour from Bangkok, is a production hub of LPG valves and distribution centre for the entire range of Cavagna Group products in the Asian Continent. The new office and showroom enables us to be more Bangkok-centric and service both existing and new clients more effectively. The New Cavagna Group Asia office and showroom is located in the heart of Bangkok's Business District. This new office is a signal of Cavagna Group's intent to further strengthen the offering to Asia-based clients. Cavagna Group Asia is rigorously managed as an ongoing component of Cavagna's ISO 9001 Quality Management System certified.
